CLINTON HISTORICAL SOCIETY

Meetings Notice

So when was the last time you shoveled coal to heat your house? Well, if you didn't do it your parents did. Energy in a few short years has moved from wood to nuclear power. This 20th century phenomenon will be the topic of our upcoming meeting.

*For either or meet  
I think bring one  
more portable food  
or else...  
for the food...  
...  
...*

*Community Day  
is coming.  
help is needed  
1st meeting 7:30pm  
Wed. June 8  
at Grange Hall*

Date: June 3, 1994 Friday  
7:30 PM at the Library  
Schultzville

Speaker: Emil Schoch  
Topic: History of Energy:  
Fossil to Fusion

After a long career at General Electric, much of it spent in nuclear research, Emil has a great deal to share about the development of energy in the 20th century.

UPTON LAKE GRANGE MEETING

You may have missed our last meeting or perhaps you enjoyed it so much you want to do it again.

94 year old Smith Heermans has been a farmer all his life and presented a very interesting talk about his life and changes he has seen in the community.

Date: June 21, 1994 Tues. 7:30 PM

Speaker: Smith Heermans  
Topic: Farming During The  
20th Century.

Place: Grange Hall  
Main St., Clinton Corners

Lets sing Happy Birthday to Smith who will be 95 on June 24, 1994

**THINK COMMUNITY DAY**

**A little more traditional flavor?**
