

## “Clinton: A History of a Town”

edited by William P. McDermott

This very significant collection of articles from seventeen local contributors covers all the major aspects of the history of the Town of Clinton. Drawing from research and personal knowledge, the authors cover the early history of the town, mills, education, government, postal services, religion, medicine, architecture, agriculture, roads and railroads, and more. An appendix notes the school districts, teachers, postmasters, and men who served in the revolution. Illustrations include early maps, including the first road in Clinton in 1718. This is truly an authoritative account of the history and life in early Clinton.
